

## **DANIEL J. GERVAIS**

### **VICE PRESIDENT**

Dan Gervais possesses a strong background in architectural design and a broad range of construction experience. He manages multiple commercial projects for Mercer Construction ranging in value from one to twenty million dollars. Some of his projects include Pacific Coast Plaza, a new 240,000 s.f. retail shopping center in Oceanside, Winchester Marketplace in Temecula, Smoketree Commons in Palm Springs, Bel Villagio in Temecula and several Albertsons and Walgreens.

Mr. Gervais is actively involved in all project phases including design, estimating, and value engineering, interfacing with owners and subcontractors, and directing the work of field superintendents. In addition to his construction management responsibilities, he manages all computer administration for Mercer Construction. Mr. Gervais' commitment to quality and excellent management skills ensure the successful completion of all his projects.

Prior to joining Mercer Construction in 1992, Mr. Gervais was a project manager for an architectural firm in Orange County developing drawings for markets, fitness centers, surgery centers, and retail buildings from conception through completion. He has also worked as a draftsman in store planning, an estimator, and an assistant project manager.
